bacteria inside

PRODUCT	APPLICATIONS	DESCRIPTION	PRICE
		<ul style="list-style-type: none"> removes unpleasant odors from garbage cans, toilets, animal cages carpets, car interior in concentrated or ready-to-use solution dilution 1-10 	<p>ECODOR 1X Removes odors</p> <p>Code20247 150 ml bottle (1x) 1,32€ Code20248 5 liter canister (1x) 9,74€ Code20493 5 liter canister (10x) 82,21€</p>
		<ul style="list-style-type: none"> detergent based on bacteria for heavy surfaces, floors, ceramics. Bacterial spores eliminate fats, proteins, carbohydrates, stains and odours. bacteria penetrate the most inaccessible places and work long after their application. dilution 1-10 	<p>GENERAL ECO Multipurpose detergent</p> <p>Code20001 500 ml bottle (1x) 1,78€ Code20016 5 liter canister (1x) 10,24€ Code20494 5 liter canister (10x) 89,27€</p>
		<ul style="list-style-type: none"> The use of the product in the washing of dishes in restaurants is faster and easier due to the presence of this enzymatic package with fast action even in cold water. The regenerative character of the enzymes allows the use of a smaller quantity of product with very good performances. The composition of NZYPUR is completely biodegradable. The skin is protected from the action of natural surfactants. Pleasant presence of perfume dosage 10 ml per 10 liters of water. 	<p>NZYPUR Dishwashing detergent</p> <p>Code20465 500 ml bottle (1x) 1,51€ Code20466 5 liter canister (1x) 11,83€</p>
		<ul style="list-style-type: none"> laundry detergent with enzymes for children's delicate laundry composition without allergic potential the enzyme pack successfully removes organic stains biodegradable ingredient certified by COSMOS does not contain dyes, EDTA or optical brighteners discreet scent dosage: from 35 ml or 43 washes 	<p>DETERGENT DE RUFEBUN</p> <p>Code20422 1500 ml bottle (1x) 10,05€ Code20499 30ml capsule (1x) 0,64€</p>
		<ul style="list-style-type: none"> Product that should not be missing from the current activities carried out in hotels, hospitals, laundries but also at home. Micro-washing due to enzymes that penetrate deep into the fibers. Immediate intervention on stains has the effect of removing them very easily and allows them to disappear without visible traces after rinsing. Textile fibers are protected by friendly ingredients. Automatic or manual washing. The composition is completely biodegradable. 	<p>DETERGENT PROFESIONAL RUFEBUN</p> <p>Code 20482 1000 ml bottle (1x) 6,29€ Code20469 5 liter canister (1x) 26,48€</p>

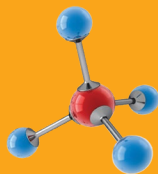

PRODUCT	APPLICATIONS	DESCRIPTION	PRICE
		<p>Product that should not be missing from the current activities carried out in restaurants, bars, hospitals, food industry but also at home.</p> <p>Saves you from unpleasant accidents. Immediate intervention on stains has the effect of removing them easily and allows them to disappear without visible traces after rinsing.</p> <p>Recommended for cleaning stains on baby clothes.</p> <p>The composition is completely biodegradable.</p>	<p>PETEX Removes stains</p> <p>Code20483 150 ml bottle (1x) 1,77€ Code20484 5 liter canister (1x) 12,46€</p>
		<ul style="list-style-type: none"> high-performance detergent for cleaning carpets and upholstery used both manually and for carpet washing machines Bacterial spores work deeply and keep the surface clean for a long time. Eliminates unpleasant odours. Dilution 1-10 (1x) 1-100 (10X) 	<p>ECOCARPET Carpet detergent</p> <p>Code20089 500 ml bottle(1x) 1,87€ Code20088 5 liter canister (1x) 12,11€ Code20495 5 liter canister (10x) 106,27€</p>
		<ul style="list-style-type: none"> Superior formulation that aims to completely eliminate unpleasant odours and organic residues that block the evacuation. The bacterial consortium degrades a wide range of substrates: biological action directly at the source. Low toxicity components that degrade easily for minimal environmental impact. Modern bacterial compatible chemistry for maximum product performance. Highly effective formulations: the product can be used on a wide range of odours and organic matter, efficacy proven by numerous field tests in case studies. 	<p>BIODIZOL Organic unclogger</p> <p>Code20492 1000 ml bottle (1x) 4,46 €</p>
		<ul style="list-style-type: none"> The use of the product in the sanitation procedures of floors and equipment, is able to reduce by about 80% the bacterial load, beyond a potentially pathogenic level, regardless of the sanitized surfaces. Persistence over time of the action of isolating pathogenic microorganisms, by introducing very large colonies of bacillus that guarantee a higher value in terms of prevention of nosocomial infections. Washing heavy surfaces. The presence of a discreet scent Dilution 1-10 (1X) 1-100 (10X) 	<p>BEACTIVE CONCEPT 2 WAYS new concept in hospital cleaning</p> <p>Code20498 1000 ml bottle (1x) 3,22€ Code20487 5 liter canister (1x) 10,23€ Code20488 5 liter canister (10x) 86,91€</p>
		<ul style="list-style-type: none"> Use of the product in the sanitation procedures of instruments and equipment it is able to reduce by about 80% the bacterial load, beyond a potentially pathogenic level, regardless of the sanitized surfaces Persistence over time of the action of isolating pathogenic microorganisms, by introducing very large colonies of bacillus that guarantee a higher value in terms of prevention of nosocomial infections. Very low foaming wash. Presence of corrosion inhibitors for metals. Dilution 1-10 (1X) 1-100 (10X) 	<p>BEACTIVE INSTRUMENTS enzymatic detergent for instruments</p> <p>Code20490 1000 ml bottle (1x) 3,46€ Code20492 5 liter canister (1x) 23,77€ Code20491 5 liter canister (10x) 108,39€</p>

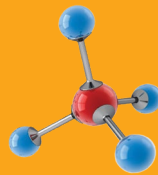

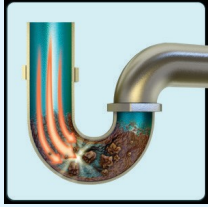

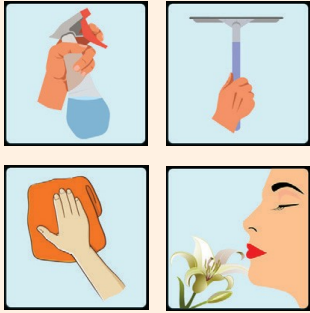

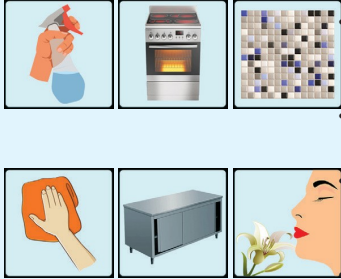

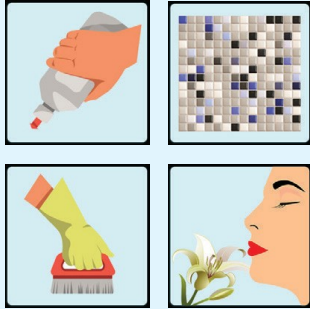

bacteria inside

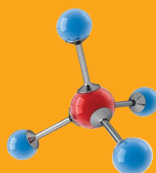

PRODUCT	APPLICATIONS	DESCRIPTION	PRICE
		<ul style="list-style-type: none"> cubes with a mixture of bacteria and chemical components designed to eliminate unpleasant odours of urine and prevent the formation of urea and limescale deposits on urinary vessels fragrant product shelf life 30-60 days or up to 1000 washes 	<p>CUBURI PISOAR disinfectant - descaler</p> <p>Code20024 blister 3 pcs (1x) 1,81€</p>
		<ul style="list-style-type: none"> spores of latent bacteria that activate in contact with water and organic matter, which separates them in water and other solid deposits application: septic tanks use: it is recommended to initiate the biodegradation process with 3 sachets of 25 grams and then weekly with 2 sachets 	<p>BIOACTIVATOR septic tanks</p> <p>Code20019 sachet 10 grams (1x) 0,47€ Code 20410 1000ml bottle (1x) 5,24 €</p>
